Role Allocation

Client Feedback

"Mission Masterpiece went down a storm! The client was thrilled with it all and thought it was the perfect activity for the group – it certainly did the trick and got people talking to each other, whilst having fun."

"We are absolutely delighted and the finished canvas has pride of place at Head Office! The Mission Masterpiece challenge has been described as 'the best ever!'"

Challenge Overview

Mission Masterpiece is the arguably the perfect team build!

Everyone is required to work together towards the common goal – creating a giant masterpiece from the segments provided.

Whether it's a well know piece of art, a photograph or a commissioned work, the teams are faced with completing the gaps in the artwork and mixing and matching the colours before putting paint to canvas!

Allocated to teams from the start means human nature takes

control and they start off in fierce competition as they tackle the brainteasers to get access to the paint shop!

Participants soon realise that to complete the challenge they will have to work together as one unified team, communicating through the room.

This challenge is superb for motivating teams and encouraging them to work effectively on the 'big picture'! The end result is a truly awe-inspiring memento for your team to serve as a reminder of what they can achieve.
